Transport Services 2017-18

Our Transport Services

Being situated in over 400 acres of North Notts countryside means we have a wonderful environment for our students to learn in – we do however recognise that parents lead busy lives and the school run can be a hurdle that’s tricky to navigate.

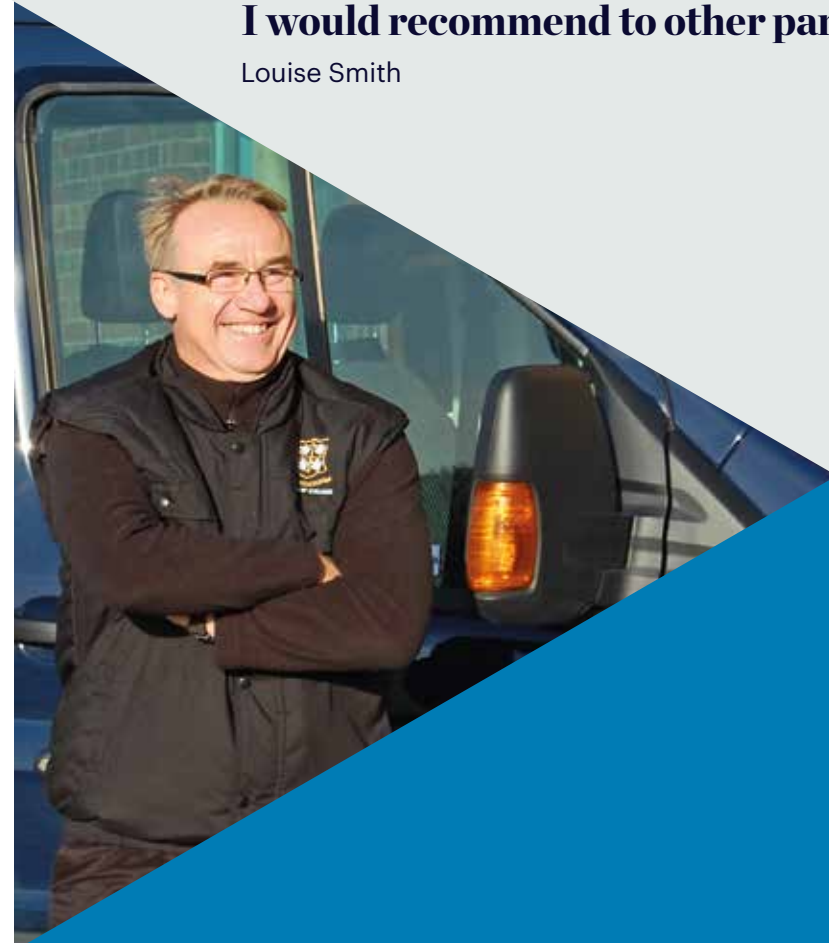

We have a number of comprehensive transport services, running morning and evening, with new routes being added all the time.

We aim to provide a value-for-money bus provision that covers as much of our catchment area as possible - and with high quality vehicles, driven by regular staff, you can be assured of the best possible service.

I think the bus service is fantastic - our driver is lovely. Very approachable and accommodating, to dropping and collecting close to home. I would recommend to other parents.

Louise Smith

The driver is fabulous, always smiley and helpful. Tobey feels safe and happy in his care.
